LISTENING TO COVERSATION AND TELEPHONIC CONVERSATION

Topic: ABOUT STUDY

Participant: Me and My friend

Me: Hey, the exams are near. Are you prepared for it?

My Friend : No, not yet. Are you?

Me: No I'm not. I don't know from where to begin and which subject, to begin with.

My Friend : Do you know that nobody has started to study?

Me: Oh God! What if nobody is prepared and everyone looks at each other on exam day?

My Friend : I don't think that will happen. Students will come well prepared.

Me: Okay now that you have said that you haven't started studying yet, what are your plans? I mean how are you going to study?

My Friend : I don't really know.

Me: Hey, I have an idea!

My Friend : What is that?

Me: Shall we study together? If we do so, then we will know what to study, how to study and all the important points we need to cover!

My Friend : Actually, that is not a bad idea!

Me: Studying with a friend is more fun than studying alone!

My Friend : That's true! A student understands more when he studies in a group and the concepts are understood very well!

Me: Exactly! So, from when shall we begin?

My Friend : Tomorrow?

Me: Yeah! Tomorrow works for me. We can set a target of 25 questions tomorrow and 25 questions on the next day. And we can revise on the third day. What do you say?

My Friend : Perfect then! Let's meet tomorrow at the canteen at 11?

Me: Yes, at 11!
